Dear Shri R Shekhar,

Under the Government of India's initiative to promote India's trade and investment with the foreign countries in coordination with the Indian High Commissions / Embassies abroad, the High Commission of India in Brunei Darussalam would like to organize a one day Stone Promotion exhibition in Brunei Darussalam in February/March 2018 to showcase India's capabilities as a supplier of steady and sustainable low cost good quality stones/granite/marble products to Brunei Darussalam.

At the event, the High Commission will invite dignitaries from Brunei Ministry of Development, construction companies in Brunei, Chamber of Commerce and stone importers in Brunei. We will also organize B2B and group meetings.

The High Commission is happy to bear the expenditure towards hiring of hall, installation of booth/stalls and local transportation.

I would appreciate if you could kindly convey your willingness to send around 10-15 stone exporters to exhibit a variety of Indian stones/granite/marble products, viz. tiles, cut blocks/slabs, monuments, etc in Brunei Darussalam.

I look forward to working with the Federation of Indian Granite & Stone Industry to organize the Indian Stone Promotion event in Brunei Darussalam in February / March 2018. Please feel free to contact me or my colleague if you have any query in the matter.

With regards,

Yours sincerely,

(Nagma M Mallick)
High Commissioner
